CO

[HB 13-1231](#)

Description:

Would prohibit tail docking of any dairy cattle; however, it allows tail docking if the following conditions are met: A licensed veterinarian performs the tail docking; The tail docking is performed for a therapeutic purpose; Anesthesia is used on the animal during the procedure; and The veterinarian conducts the procedure in a manner that minimizes the animal's long-term pain and suffering.

Status: Introduced 2/13/2013; Died

Failed

CO

[SB 201](#)

Description:

Would require veal calves and gestating sows be kept in a way that allows such animals to freely stand up, lie down, and turn around without touching the sides of their enclosure. Effective for veal on 1/1/2012 and effective for gestating sows on 1/1/2018.

Passed

Pass Date: 4/7/2008
