

## All OR Legislation

© 2018 Animal Agriculture Alliance

April 23, 2018

**OR**

[HB 2175 / HB 2532](#)

**Relating to food labeling**

Description:

Would require foods produced with genetic engineering to be labeled.

Status: Failed 7/8/2013

*Failed*

**OR**

[HB 2396](#)

Description:

Would prohibit administration of medically important antibiotics to food-producing animals for non-therapeutic purposes unless there is a significant risk of a disease or infection that is present on the premises being transmitted to the food-producing animal; it is necessary to prevent transmission of the disease or infection; it is provided to the food-producing animal for the shortest duration necessary to prevent transmission of the disease or infection; and it is provided to the smallest number of food-producing animals necessary to prevent transmission of the disease or infection. Would require the operator of a CAFO to file an annual report regarding administration of medically important antibiotics to food-producing animals at the operation. Makes prohibition and reporting applicable to provision of antibiotics to food-producing animals on or after January 1, 2018. Declares emergency, effective on passage.

Status: Failed 7/7/17

*Failed*

**OR**

[HB 2598](#)

**Relating to the provision of antibiotics to food-producing animals**

Description:

Would prohibit administration or other provision of medically important antibiotic to food-producing animal for nontherapeutic purposes. Requires operator of concentrated animal feeding operation to file annual report regarding administration of medically important antibiotics to food-producing animals at operation.

Status: Failed 7/6/2015

*Failed*

**OR**

**[HB 2692](#)**

**Relating to animal welfare laws**

Description:

Would add offenses of equine tripping and encouraging animal abuse to definition of "animal welfare laws" for purposes of enforcement by humane special agents.

Status: Failed 7/6/2015

*Failed*

**OR**

**[HB 3006](#)**

**Relating to dairy animals**

Description:

Would permit the Dairy Animal Welfare Board to submit comments to the Legislative Assembly based on the most recent scientific data of accepted animal husbandry practices existing at the time. The comments may include, but need not be limited to, comments regarding the potential impacts on dairy animal care and welfare and on the safety of human dairy food supplies of legislation and ballot initiatives dealing with dairy animal care and agricultural practices affecting dairy animals.

Status: Failed 6/30/2011

*Failed*

**OR**

**[HB 3121](#)**

**Relating to genetically engineered food**

Description:

Would require foods produced with genetic engineering to be labeled.

Status: Failed 7/6/2015

*Failed*

**OR**

**[HB 4122](#)**

**Relating to genetically engineered goods**

Description:

Would require labeling of genetically engineered fish sold or offered for sale for human consumption and require labeling of packaged products containing genetically engineered fish and sold or offered for sale for human consumption.

Status: Failed 3/3/2016

*Failed*

**OR**

**[SB 694](#)**

Description:

Would prohibit a person from confining a gestating sow in an enclosure for more than 12 hours in a 24-hour period in a manner that prevents the sow from lying down and fully extending its limbs or turning around freely.

Status: Effective 1/1/2008

*Passed*

**OR**

**[SB 785](#)**

Description:

Livestock producers would only be able to provide a medically important antibiotic to their animals if a veterinarian determines it's necessary to treat or control the spread of a disease or infection, or due to a medical procedure. Farms that are considered concentrated animal feeding operations would have to submit information about their antibiotic usage to the state government, with those records subject to disclosure as public documents.

Status: Failed 7/7/2017

*Failed*

**OR**

**[SB 805](#)**

**Relating to egg-laying hens**

Description:

Would prohibit a commercial farm owner or operator from confining egg-laying hens in an enclosure that does not meet standards equivalent to the requirements for certification established in the United Egg Producers' Animal Husbandry Guidelines for U.S. Egg Laying Flocks and would require that enclosures constructed or otherwise acquired on or after January 1, 2012, meet, or be convertible into enclosures that meet, standards equivalent to the requirements for certification of enriched colony facility systems established in the American Humane Association's farm animal welfare certification program.

Originally, HSUS was pushing a ballot question that would mandate cage-free housing for egg-laying hens by 2019, but dropped the ballot when an agreement was signed by UEP and HSUS. The agreement said HSUS would not move forward with ballot initiatives in Oregon and Washington to go cage free.

Status: Effective 6/22/2011

*Passed*

Pass Date: 6/22/2011

**OR**

**[SB 920](#)**

Description:

Would prohibit administration of medically important antibiotics to food-producing animals for non-therapeutic purposes. Would require the operator of a CAFO to file an annual report regarding administration of medically important antibiotics to food-producing animals at the operation. Makes prohibition and reporting applicable to provision of antibiotics to food-producing animals on or after January 1, 2016.

Status: Failed 7/6/2015

*Failed*
